

## User Study 3

Record Linkage tutorial -> explaining the need for interface(privacy vs accuracy)-> tutorial from mode 2-> mode 1->mode 2 -> data mapping tutorial from mode 5-> mode 5 -> mode 4 -> mode 3

-> conclusion(explain result and findings from user study 1)

mode order: x,1,2, x,5,4,3

tutorial : 2,x,x, 5,x,x,x

2,2,5,4,3,

x For each mode only have one page

x change the mode order

x add Recap slides

x leave the consent page

- remove the presurvey page// its not on there

- seq is in many files//

- add step 2 (explaining...)

- tutorial from mode 2

-remove practice pages

-5.html

-insert data mapping tutorial(insert a page)propagate the step information

experimentr.data()[“..”]

Define step 3

-add conclusion
